INCREASE STOCK.

The Oahu Railway To Double Its Capital.

NEW VALUE MAKES GOOD COLLATERAL

Superintendent Dennison's Work Praised and Presented With \$2500 Check.

Stockholders of the Oahu Railway and Land Company received additional shares yesterday by the increase of the capital stock from \$2,000,000 to \$4,000,000, the additional \$2,000,000 to be distributed pro rata among the holders of stock. The action was taken during the annual meeting of the stockholders held yesterday morning in the rooms of the Chamber of Commerce.

The new issue of stock will take place on March 1, the distribution to be one new share of double value for one old share. B. F. Dillingham, general manager of the road, and the one who has made the road one of the most successful business ventures on the Island of Oahu, presented the resolution for the increasing of the stock and distributing it as a \$2,000,000 dividend among the lucky holders of stock. The resolution was passed by a vote of 100 to 0, the effect being to such an extent that the stock had increased 50 per cent and the company had a clear value of \$4,000,000 over all indebtedness. On his recent trip to the Coast, Mr. Dillingham said he had consulted with Charles R. Bishop, Mr. Crocker of the Crocker-Woolworth Bank, and many other financiers of the Bay City, who had advised making the increase. The increased value of the shares would make it a 6 or 7 per cent dividend-paying investment, which gave it a better collateral security than at from 12 to 15 per cent.

When put to a vote the resolution was passed unanimously. The amount of stock represented at the meeting was about five-eighths of the entire number of shares in the company. Superintendent Dennison of the road was complimented by Mr. Dillingham for the efficient manner in which he had handled the company's business and in the building of the railroad wharves which have materially changed the appearance of the harbor and given it much needed wharfage. In his opinion, Mr. Dennison had saved thousands of dollars for the company, and he was entitled to recognition from the company. Mr. Dillingham moved that the stockholders appropriate the sum of \$2,500 as an honorarium, which was done by unanimous vote. The election of officers for the ensuing year resulted as follows: President, S.

C. Allen; first vice president, J. B. Atherton; second vice president, W. F. Allen; secretary, A. W. Van Valkenburg; treasurer, M. P. Robinson; auditor, W. G. Ashley; additional directors, W. M. Graham, W. F. Dillingham, E. E. Paxton, H. M. Von Holt.

DANGER OF COLDS AND LA GRIPE.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Benson, Smith & Co., Ltd., wholesale agents.

Counterfeit Quarters.

Quantities of spurious Hawaiian quarters are at present in circulation. The counterfeit is perfect in everything except the ring of the metal. The coins are dated 1883. One business man in town yesterday obtained some of the spurious currency from a leading bank, which goes to show the high degree of excellence of the imitation.

It is thought by the authorities here that the quarters were manufactured in or around Manila and unloaded here from a home-going transport. Such a course would be very easy, for the counterfeit can pursue his gentle art unmolested in the Philippines and then stop off here and "shove the queer."

RACING SEASON DRAWING NEAR

Horses are Being Brought up From Hilo and Find the Track Very Bad.

Tom Ryder, the pacer, will be down this way in a week or so to be matched against Silas S., and with him will come McManus' Ayres P., also on the lookout for trouble. Both horses are at present in Hilo.

Local horsemen are asking what is the matter with the Jockey Club. Nothing has been heard of that august institution since June last.

The racing season is drawing on apace and no preparations whatever are being made for it. The track is in bad shape and the paddock is practically impassable. Kamehameha Day has from time immemorial been observed as Hawaii's great race day, and the interest in it is shared by rich and poor, haole and native; it is Hawaii's Derby Day. If this year's equine celebration is to come up to that of former years, an instant move must be made.

There are more horses here than ever before and more people anxious for good racing. Despite these facts, however, the leading racing institution remains dormant, and trainers, owners and the public generally are demanding to know why. If a meeting be not called in the near future, it looks as if the June racing festival would go by the board or be gotten up at such short notice as to result in an exhibition of equine antics which will disgust a much-enduring public and put an effective extinguisher on the somnolent Hawaiian Jockey Club and all its works.

PAYS THIS CITY A SECOND VISIT

James Vincent, Better Known as "Morning Star" Comes Here on Sheridan.

Richard James Vincent, known all over the world as "Morning Star," arrived here on the transport Sheridan.

Vincent was in Honolulu in 1893 on his way round the world. During the next two years he visited Japan, China, Straits Settlements, Siam, Ceylon, India, Africa, Egypt, Turkey and many other parts of the world. During his travels he lived entirely by his wits and contributions to newspapers and magazines.

When in Honolulu before he visited the volcano and wrote several articles for the local papers on his impressions. He was then only 11 years of age. Queen Liliuokalani was much interested in the youthful traveler and gave a luau in his honor.

Since 1890 "Morning Star" has been in Spokane, Washington, alternately working and going to college. The War Department furnished him with transportation on the Sheridan in recognition of services while acting as special messenger to the United States legation in Brazil.

Vincent is president of the American Boys' Battleship Association, a patriotic movement by American children to supply a battleship to replace the Maine. The sum of two and a half million dollars was raised and Congress is being asked to appropriate four and a half million dollars to cover the remainder necessary. The vessel will be called the American Boy. "Morning Star" intends to make a lengthy stay here and says that he has many friends in the Islands.

Maternity Home Luau.

A meeting of the ladies who have kindly consented to take tables for the coming luau and fair will be held tomorrow morning at 10 o'clock at the Kapiolani Maternity Home. Mrs. Bowler, secretary of the board of directors of the Home, asks the co-operation of ladies willing to assist in any way towards the object now being worked for, which is a woman's surgical ward, properly equipped. Such an institution is greatly needed. The meeting tomorrow is open to all who are interested in the movement.

SAID WHAT HE THOUGHT.

At a gathering of clergymen held in Indianapolis an address was made by one of them against what he termed "up-to-date" preaching. He contended particularly against sermons on "sociology, biology, or any other ology," and closed his peroration with this most orthodox and irreproachable remark: "To quote from Kipling, 'I am sick of the whole damn business.'"

Meager details have been received of an earthquake in the Lake Chelan district, Wash., accompanied by a loud rumbling. Lakeside, a small place near the lake, was most affected, but the extent of the damage is not known. Owing to the difficulty of communicating with the remote district it has been impossible to obtain an accurate account of the disturbance. One man who is well informed on Lake Chelan said tonight that he would not be surprised if some of the cliffs along the lake had broken away and tumbled into the water. It is a very mountainous region.
